VINYASA FLOW –Vinyasa is a form of dynamic yoga where we follow the breath through different sequences of yoga postures. These classes are strong, challenging & fast paced - transitioning fluidly between shapes. Emphasizing the movement between poses as much as the poses themselves- Vinyasa is a great way to clear internal blockages, increase mindfulness, energize & strengthen your physical & energetic systems, & find a centre of calm within intensity. A great way to start the day.

MORNING PROGRESSIVE VINYASA SERIES–Our weekly series takes you on a journey through the chakras (energy centres in the body) with each day focusing on a different chakra, its corresponding element & body part. These classes can be done on their own or as a progressive series to clear blockages, increase mindfulness & energize & strengthen your physical & energetic systems.

MULADHARA-EARTH-FOUNDATIONS–Earth focuses on strengthening our base-our root chakra & foundations. With an emphasis on alignment & bandha activations (muscular activations around a joint complex) we create strength, stability & grounding in our foundations to support a safe & easeful practice.

SVADHISTHANA-WATER-HIPS–Focusing on the potent life force energy stored in our hips & the element of water, we play with creative, smooth, graceful & fluid movements to release contractions & blockages in our energetic pathways & re-circulate our Prana through our physical & subtle body systems. Wonderful for releasing & reclaiming the energy of stored emotions & stresses.

MANIPURA-FIRE-CORE–Focusing on our core & the element of fire - in this class we will activate our fire body to support, energize & lighten our physical body as we move through strong, core centered asanas. Great for creating deep strength, determination & an ability to move from centre.

ANAHATA-AIR-HEART–Focusing on the element of air we become conscious of the animating force of the breath as it expands through our chest cavity, the seat of our lungs & heart. When we move with an open heart, kind internal dialogue & a receptive relationship to the breath - we experience increasing lightness, ease & joy in our practice.

VISHUDDHA-ETHER-THROAT–Focusing on the element of ether we become aware of the energetic centre of sound vibration, our throat & use movement to explore where & how our physical & subtle bodies receive, experience & attune to the vibration of sound. It is also an opportunity to reflect on how intention can be manifested through the vibration of sound in speech & mantra & to explore the weaving of these intention seeds through our body in our physical practice.

AJNA-LIGHT- THIRD EYE–Focusing on the element of light & our clear sighted vision, we use our asana practice as a tool for focusing & clarifying our mind & our mind as a tool for enhancing our practice. Our mind can be a tool for extraordinary illumination or the cause of great confusion & suffering. By working with the qualities of the third eye, by cultivating the observer mind & inviting in clear perception & insight we are able to explore how powerfully our physical practice is impacted by the mind.

SWARA-CROWN-EMBODIED INTEGRATION–Our crown chakra has no associated element as it is the chakra that integrates all others & brings us into union with the greater whole. Tying it all together this class explores the concept of using the body as a vehicle for enlightenment. By cultivating deep awareness of shifting somatic sensation as we move through space we notice how each new posture activates a different zone of physical intensity. We continue to cultivate our observer mind & use each new physical activation as an opportunity to anchor our awareness more deeply into our bodies. In this way we yoke our mind, body & breath together- integrating our different platforms of awareness to experience the deeper meaning of yoga which is union.

RESTORATIVE–Restorative yoga is a passive, cooling style of yoga where props are used within the poses. This allows for longer holds to be comfortably sustained, supporting the body to open & the mind to drop into a space of deep calm. Excellent for stress reduction, balancing & calming the nervous system & gently opening the muscles & deeper connective tissues of the body.

SLOW FLOW–In this pared down class-movements are simplified & slowed down offering space to connect with quiet presence & move with grace & intention. Great for beginners, with more time in each posture to focus on alignment & refinement of the shape. Helps to balance the nervous system & mind, circulate energy & create a calm yet energized feeling state.

YIN–Yin yoga targets the deepest tissues of the body, our connective tissues — ligaments, joints, bones, & the deep fascial networks. It also targets our meridian system moving energy along our networks of energetic pathways. Using a series of long-held, passive floor poses (up to 7 minutes), this deeply relaxing class helps to calm & balance the mind & body, reduce stress & anxiety & improve flexibility & joint mobility.

KUNDALINI SHAKE-ECSTATIC DANCE MEDITATION–Starting with guided shaking to shift stuck energy through the body we move into free flow movement & dance. This is followed by a period of seated meditation, using the space of stillness to feel into the energetic effects of the movement. The session ends with lying down, also in stillness, to integrate the practice. Wonderful for moving & expanding energy through the body systems & cultivating an internal space of joy & bliss in safe non judgmental space.

POWER YOGA WITH WEIGHTS–This class incorporates light hand weights with simplified & slower sequences to build strength. With longer holds in each shape there is space to incorporate weight reps while also building integrity in your postures. Wonderful for improving core strength, creating long & lean muscles & promoting safe & stable alignment patterns.

ACROYOGA–Bring a partner or come on your own & we will pair you up- AcroYoga is a fun & playful form of yoga combining acrobatics with more traditional yoga forms. Working in partnerships with a base & flyer- you can play at defying gravity, while improving your balance, strength & focus. Open to beginner & advanced AcroYogis alike!

MEDITATION & PRANAYAMA–Pranayama one of the 8 limbs of the yogic philosophical tree, uses the breath to activate & create effects in the energetic body. By clearing the energetic & pranic pathways, it becomes easier to access deep meditative states. In this class we explore different pranayama practices & meditative focuses to move energy through the body, calm & focus the mind & discover new internal landscapes of wellbeing & bliss.
